House Memorandum

Subject Merger of City-County Health Departments

COPIES TO:

Dear Councilman Nuckols:

Several members of Council have contacted me regarding the news report on the new approach to merging the City and County Health Departments. They raised the question particularly in light of the fact that early this year Council passed a resolution authorizing Fort Wayne's participation in a merger pursuant to legislation which was passed in the last session of the Legislature.

I had always been under the impression that the merger would become effective January 1, 1973, pursuant to this legislation. However, this is not the case. You might notice from the newspaper reports of the meeting, that the meeting which was held was held with County officials and employees of the City Health Department. Neither I nor anyone in the Administration was invited to this meeting or to the previous meeting which was held. I am not a party to the agreement which was announced nor do I agree with the agreement.

My reading of the legislation and the reading of that legislation given to me by the City Attorney substantiate that the legislation, while not perfect in every aspect, is sufficient to enable an adequate merger. The legislation is favorable to the City and I did not find this to be unfair since City residents will be paying the bulk of the merged department's expenses. However, it has come to me that some members of the County Government have been unwilling to go ahead with the merger for reasons which have not been made too clear.

Some members of Council have expressed disagreement with the appointment of a joint City-County Steering Committee to study the merger possibilities and work out the problems. I also am in disagreement with this idea. I feel that both the City and the County should appoint their members to the joint seven-man Board of Health and allow this seven-man Board of Health, which under statute must be composed of professionals, to work out the difficulties and the problems which might exist in a merger.

I see no reason for calling in outside consultants when we have the technical ability within the City Department and the local medical profession to adequately define any difficulties and to describe the solutions to these difficulties.

I do not feel that we should wait to draft new legislation before we

effect the merger. I am a little suspicious of this approach. And I feel that any new legislation which is drafted will be an attempt to shortchange the best interests of the City.

In summation, my solution to the problem would be for me to appoint the City's representatives to the seven-man Board of Health and for the County Commissioners to appoint the County's representatives to this same Board. Those seven professional individuals will have enough integrity and ability to work out the details of the merger.

Please pass on this information to those members of Council who have expressed an interest and advise them that I will keep them informed of all further developments.

Gentlemen and Mrs. Schmidt:

Attached hereto is a copy of a resolution pertaining to one (1) zoning ordinance amendment acted upon by the City Plan Commission at their regular meeting held September 25, 1972. In addition to the reasons outlined in the resolution, the following are additional remarks pertaining to the ordinance involved:

   a. Intended Use: Extend existing commercial zoning.
      (Body & Paint Shop)

      This ordinance received a DO PASS recommendation for the following reasons:

      (1) This would be a logical extension to a commercial use.
